

THE LATEST NEWS FROM BADGERDOM

BELOIT YOUNG MAN CARRIES OFF THE HONORS.

Rollo L. V. Lyman Won the Laurels of Oratory in the Inter-Collegiate Contest at Ripon—Spoke Under Dramatic Circumstances, His Bride-to-Be Having Died—State News.

Ripon, Wis., March 11.—To Beloit college fell the highest state honors in oratory last night, in the annual tri collegiate contest. Upon Rollo L. V. Lyman, the verdict of six impartial judges of recognized ability bestowed the Wisconsin laurel oratorical wreath, and with it the state representation next May in the intercollegiate battle at Lincoln, Nebraska.

Harland L. Logan of Lawrence university, was awarded second place, and will accompany Mr. Lyman on the western trip to act as substitute to the Wisconsin orator in the event of the latter's incapacitation.

The announcement was no surprise to the audience, and the decision agreed with the speculative views of probably two-thirds of the people making guesses. Immediately after the final decision was made, the pent-up enthusiasm of the Beloit's handful of followers knew no bounds. Forty faithful and beribboned Laurentians followed with its varsity yell and others prepared for contemplated victory. The great body of Ripon students took the defeat placidly. Although only two places were announced, it was considered probable Jupp had taken third.

WAS A FREAK OF ELECTRICITY

Traveled Two Blocks and Raised Havoc at the Grant Home.

While Electrician Klein was thawing water pipes with electricity at the Charles L. Valentine home on North Bluff street yesterday afternoon, the current found its way, probably through water-pipes, to the Francis Grant home on Cornelia street, two blocks away, where it entered the cellar and communicated with the furnace chains. From these chains it found its way to the floor above and scorched the woodwork. The trouble was discovered in time to avert serious damage, but it was some time before the mystery was solved.

NO MORE F. R. M. COUPONS

Manager Fox Quits and Returns to Elgin.

The F. R. M., or Free Reading Matter coupons are things of the past in Janesville. Coupons from a book furnished from the manager of the scheme were used by the cash purchaser at such places as were named in the book, and the coupons were exchanged by the manager for any reading matter the customer desired, or cash orders on any of the merchants using the coupons were given if desired. The system was started in this city by A. C. Switzer, who continued it successfully several years. About a month ago Mr. Switzer sold out to O. V. Fox, of Elgin, who started to continue the business.

Yesterday the merchants were notified by Manager Fox not to accept any more coupons, as they would not in the future be honored.

Mr. Fox's headquarters were at Palmer & Samsy's drug store. He has returned to his Elgin home.

BELOIT COLLEGE NEW COACH

W. M. Thornton, Well Known Baseball Pitcher Offered the Position.

Walter M. Thornton has been offered the position of baseball coach this spring to the Beloit college team and will probably accept. He has been pitcher in the Chicago league nine four or five years and is well known throughout the country as a phenomenal ball twister and heavy batter. He has left professional baseball, however, and is studying law. He is in every way fitted for the position he will hold and of course this arrangement is not permanent, as he wishes to continue his studies and makes no pretensions as to football. Beloit's prospects are bright in baseball this year. Jeffris has left, as has also Beaumont, Beloit's heavy hitter, who played in Milwaukee last summer, and is to be with Pittsburgh this year.

IT IS EQUIVALENT TO AN ULTIMATUM

ITALY MUST TAKE BACK HER NOTE.

Italian Minister Requested By the Chinese Government to Take Back His Demand for San Mun Bay—China is Given Four Days to Accede to This.

Peking, March 11.—[Special]—The Italian minister has been requested by the Chinese government to take back his note containing Italy's demand for San Mun Bay, which was returned to him. The minister gives China four days to accede to this which is tantamount to an ultimatum.

London, March 11.—[Special]—Queen Victoria started for France today. Boulogne, March 11.—[Special]—Queen Victoria arrived this morning, and proceeded by special train to South France. A large force of generals and armies escorted her from train to train.

London, March 11.—Russian troops, according to a dispatch from Allahabad, are marching to take possession of Sir-i-Kel, the hundred miles of territory in the Great Pamir region whose boundaries were left undefined by the Pamir boundary commission. If the seizure is accomplished it will cause grave complications with Great Britain, as the aggression will be interpreted as a menace against British rule in India.

In striking contrast to this is the peaceful news that comes from China. It is said Great Britain and Russia have taken the first step toward an amicable adjustment of their relations in the far east. Official information to this effect has been given out at Peking, and it is confirmed by press advices. The negotiations were initiated on the Nieu-Chwang contract, which has been the chief bone of contention since its grant to Great Britain by China last January. Russia entered strong protest against its terms, but now has withdrawn all opposition to the carrying out of the contract. This is understood to be only the preliminary to a permanent agreement regulating all Anglo-Russian relations in China.

News also comes that there is strong probability that China will accede to the proposition to make San Mun an open port. Italy, it is stated in Washington, will not press her claims to that city, especially in face of opposition from Great Britain and Japan. This is contradicted, though, in Rome, it being asserted there that the Italian government has ordered three more cruisers to San Mun bay to back up its demands.

Rome, March 11.—The Italian government will adhere firmly to the position it has taken upon the San Mun bay question. The Italian minister to China will be directed to hand an ultimatum to the tsung-li-yamen (Chinese foreign office). The government will be satisfied with nothing less than the withdrawal of the refusal to Signor de Martino's dispatch, and an expression of readiness to negotiate for the cession of San Mun bay. It does not contemplate the forcible occupation of San Mun bay, except as a final resource should China persist in refusing to give satisfaction for the affront to Italy.

The Gazette del Popolo says that the accord between Italy and Great Britain is complete. Italy is prepared to cede Erythra to England, and the latter will vigorously support Italy's action in China.

Anxious For a Fight. Manila, March 11.—[Special]—The battalion of the Fourth infantry, which arrived on the Grant yesterday, will go on duty at the waterworks. The new arrivals are anxious to get into the fighting.

New York, March 11.—A special to the Journal from Washington says: "The government has decided to have a great naval station at Manila. It is proposed to build big docks there, together with fully equipped machine shops, so that the largest of our battleships in Asiatic waters may be docked and repaired there in case of necessity, without being compelled either to return to San Francisco or to rely upon friendly foreigners, who could assist in times of peace, but whose yards would be closed against us in time of war."

The docks and machine shops, for the money to build which congress will be asked next winter, added to the store of coal it has been determined to maintain there, will make Manila a most important naval base.

It was at one time thought that this base would be established at Honolulu in the mid-Pacific. The decision to put it in the Philippine islands is important as affording an indication of the future policy of the administration in Asiatic matters. It is interpreted as indicating that no matter what may be the ultimate determination of the United States as to the form of government to be given to the people of the Philippine islands, we are at Manila to stay and will hold that port and harbor as a perpetual reminder of Dewey's great victory.

The decision is also taken to show that the administration anticipates in the near future that the United States will be compelled in the protection of its own interests to become a participant in the partition of China, and has, therefore, decided on establishing a naval base near to the scene of future operations.

Lawton's Men Are Landed

TOBACCO GETTING SCARCE

Buyers in This Locality Are on the Alert These Days.

The Farm and Home in speaking of the local leaf tobacco market says: "The beginning of the end of the '98 crop is in sight, and already in many sections the crops unsold are so scarce as to cause buyers to seek some other locality. Buyers are just as eager for the tobacco as they have ever been and are paying just as high a price. Edger town buyers seem to be more eager than local packers and hold prices up to a high point. All grades are in good demand, from the filler to the wrapper grades, an especially good demand having recently sprung up for filler grades and buyers are trying to get farmers to part with their fillers, without the remainder of the crop, but the farmers do not take to the idea very kindly."

MILWAUKEE BOYS WERE SURPRISED

EASY MARKS FOR THE JANESVILLE HIGHS.

West Side Milwaukee High School Basket Ball Team Defeated By a Score of 26 to 9—The Bachelor Maids, a School Society, Banquet Visitors.

The result of the basket ball game last evening between the Milwaukee West Side High and the Janesville High school teams, for the state championship at the High School gymnasium was a victory for the Bower City boys. The Cream boys arrived in the city, full of hope and confident of victory but alas! Every fond hope was blasted last evening.

Last year, the local team defeated the East side Milwaukee High on two occasions and very reluctantly and this year they refused to play. The west and South side team claim to be tied for the State Championship, but nevertheless the home team showed their superiority in the science of the game and proved beyond a shadow of doubt that they are the champion High school basket ball team of the state, defeating the Milwaukee team last evening by a score of 26 to 9.

More than two hundred lovers of amusement witnessed the game and it was apparent from the outset, that the home boys had the best of it, which was no dream and they kept up a bold front until the finish. The visitors were handicapped from the start for they were compelled to play on the defense, therefore their opportunities to throw baskets from the field were few and far between. They were active and their team work was very good. Koch and Davis made some exceptionally good plays.

The home team made a good record for itself, every member throwing a basket from the field. Nowlan, a new member, was cheered for many brilliant plays. Carpenter played with much energy. Nott was as quick as greased lightning, and generally got the ball on the toss ups. Palmer and Murwin, the guards, also did their share in carrying off the honors of the game.

Prof. Charles Blyman was the referee, and Will Dougherty the umpire. Tillama, the Milwaukee umpire, did not seem very well onto his job, and apparently called fouls to get even. Carr, of Janesville, and Mendville, of Milwaukee, were the timekeepers. The line up of the two teams was as follows:

MILWAUKEE		Baskets	Free
		Field	Throws
Dankohler, f.	1	0	0
Davis, f.	1	0	0
Koch, c.	0	0	0
Wollagar, g.	0	0	0
Davis, g.	0	0	0
Total	4	0	0
JANESVILLE		Baskets	Free
		Field	Throws
Carpenter, f.	1	0	0
Nowlan, f.	1	0	0
Nott, c.	2	0	0
Palmer, g.	1	0	0

SPRING COSTUME OF BLUE NUN'S VEILING FROM HARPER'S BAZAR

The costume is made of Pastel blue veiling in combination with foulard of a creamy yellow hue. The skirt represents the new simulated overdress design. The upper part has a center seam both back and front but may be made if desired, with a back seam upon a fold of the goods and the opening in front. The back opening will usually be found preferable. Trimming of any preferred variety may garnish the front seam. In the present instance soutache braid ornaments are the medium selected. The upper skirt ends where the ordinary tunic would end and here a circular ruffle is applied under the edge of the upper skirt. This skirt may be made over a model skirt or may be worn with drop skirt. The bodice modelled upon lining pattern of a model waist fits perfectly to the form. The lower part is covered with the foulard, and forms a cuirasse above which are four folds of

the same material. The bolero is slashed into square scoops in the front, and outlined with soutache. The fastening of the bodice is at the left shoulder and left side seam under the arm. In making a bolero it should be borne in mind that these dainty little ornamental jackets are always left free from the under arm waist seams, and are only joined to the waist at the shoulder. This is done in order that the bolero may be slightly stretched over the under bodice, and a better fit thereby may be secured. The proper cut of the bodice can be obtained only by the use of the cut paper patterns published by Harper's Bazar, where the costume appears.

To make this garment in medium size, 7 yards of material 45 inches wide will be required, and 5 yards of taffeta 19 inches wide, or 4 yards of foulard 27 inches wide for the folds about the bodice.

Railway Trainmen at the lodge room over the China Tea store. Progressive cinch was the order of the evening's amusement, in which in the neighborhood of eighty ladies and gentlemen participated.

During the evening a quilt was raffled off, the lucky number being held by Mrs. James Cassaday.

An appreciated feature of the evening was a palatable spread to which all did ample justice.

The committee of arrangements consisted of Mrs. J. J. Dulin, Mrs. J. W. McCue, Miss Margaret McCue and Mrs. Ida Cantillon.

Scandinavian Mask Ball

A most enjoyable gathering last evening, was the second annual masquerade ball of the Scandinavians of Janesville, which took place at Columbia hall. There were all kinds of costumes, some of which were very pretty. At 11 o'clock the grand march was announced and the unknown made their identity known. The music was furnished by Tuckwood's orchestra of four pieces.

Soverhill, an extensive tobacco buyer of Janesville, and shipped to that city yesterday with other purchases, amounting to two car loads."

WALKER WHITESIDE TUESDAY, THE 14TH

IN HIS NEW PLAY, "THE RED COCKADE."

Will Be Presented For the First Time in Janesville—Robert Mantell, the Famous Romantic Actor Comes Next, Wednesday, March 15th—Both Worthy Attractions.

The engagement of Mr. Walker Whiteside in this city on Tuesday evening, March 14, promises to be one of considerable importance, influenced largely from the fact that he will present his new play, "The Red Cockade," for the first time here.

"The Red Cockade" is from the French, founded on M. Ponsard's "Lion Amoureux," the test play of the Theatre Francaise, Paris, for some years past. It is a romantic comedy-drama fraught with thrilling situations and soul-stirring incidents of the Napoleonic era and French Revolution of 1795, effervescing with charming bits of comedy and beautifully blended with dainty love scenes. The historical "Reign of Terror" furnishes ample scope for the ambitious playwright, and in the character of Captain Martel, Mr. Whiteside is afforded unlimited opportunities to display his

WALTER WHITESIDE.

great genius and versatility as an actor. The part is that of a young officer in the Revolutionary army, the army of the people, whose emblem of loyalty is "The Red Cockade." He is loved by, and in love with the daughter of one of the proudest members of the French nobility, but being a Republican and of the people, such an alliance is looked upon with horror. Reluctantly and against his will she sends him from her; he goes forth to battle, but returns latter to claim his first love.

Mr. Whiteside is surrounded by the same well-balanced company that has characterized his productions in the past. "The Red Cockade" will have a most complete presentation in every respect.

The Famous Robert Mantell

Robert Mantell will be at the Myers' Grand, Wednesday evening, March 15th, presenting his successful romantic drama, "Monbars." Probably no player of our country stands in greater favor than Robert Mantell. Since his advent as a star, he has been a continuous producer of those scholarly works which make the theatre a temple of art and education. Not only is he himself an able stage manager and sincere student, but he surrounds himself with actors of acknowledged ability; his mountings are finished and correct, and the ensemble of his presentations perfect. He carries a large equipment, and costumes his play with marked taste and fidelity. Shakespeare, of course, is his great master; but acknowledging the ability of the modern writers, he selects from the best; Dumas, D'Ennery, and Sardou are his favorite authors; their works have received conscientious care, and have never been better presented in this country.

The events with which "Monbars" is concerned are romantic in the highest degree and they are given the setting of France in 1792 a place and time having been the picturesque character circulated to touch the imagination and stir the blood.

The company which Manager Hanley has engaged to support his star is said to be the strongest with which he has ever been surrounded.

WEEKLY REVIEW OF TRADE.

Significance of the General Advance in Wages.

VOLUME OF BUSINESS GOOD.

Bradstreet's Says Industrial and Trade Activity Is Still a Prominent Feature of the Trade Situation—Decrease of Failures in the United States.

New York, March 11.—R. G. Dun & Co.'s weekly review of trade says:

"By far the best assurance of good business in the future is found in the general rise of wages. The general advance in earnings of cotton-mill operatives, in most cases 10 per cent; of iron and steel workers, generally 10 per cent, and tin plate and sheet workers, from 5 to 10 per cent, and of coal miners in some large districts, about as much, has set a pace which most establishments will follow which have reduced wages in the past years of depression. Those who fail to comprehend what such a change may mean have only to consider that a tenth raise in the wages of all labor would put into the markets a new buying demand, in amount about three-fourths the entire value of exports to all countries. The volume of business shows no signs of decrease, and for the first full week of March has been about 51.7 per cent greater than in the same week of last year and 60.9 per cent greater than in 1892.

"Failures for the week have been 132 in the United States, against 248 last year, and 37 in Canada, against 36 last year."

Bradstreet's says:

"Industrial and trade activity is still a pre-eminent feature of the general business situation. Price strength, too, is notable, especially in view of the midwinter rise of February, except in the case of the leading cereals and wool. In manufacturing lines the situation is one of great activity. The iron and steel trade is still excited by reports of feverish demand, inadequate supplies and further advanced quotations. An easier tendency in wool is one of the disappointing features of the week. The demand for cotton goods is very active and nearly all classes are firmly held. Cotton remains steady. Lumber is active at most markets and prices are firm. Raw and refined sugar have alike moved upward this week. Wheat is weaker, notwithstanding crop-damage reports, and other cereals are in sympathy therewith.

"Wheat (including flour) shipments for the week aggregate 4,398,321 bushels, against 5,815,585 bushels last week. Corn exports for the week aggregate 3,736,586 bushels, against 5,794,863 bushels last week."

MINERS GAIN A POINT.

Will Help the Organization—Fear Trouble at the Next Convention.

Springfield, Ill., March 11.—After conceding every other point to the operators, the United Mine Workers secured one concession before the agreement was signed Friday that will make them the strongest labor organization in the state. When the miners' scale committee had agreed to accept the wage scale of last year it still held back and refused to sign the agreement unless the operators would also agree to take out the dues of the members of the organization from their regular pay checks and turn the money over to the local treasurers of the mine workers. By this practice all of the 35,000 members of the organization in Illinois will be always kept in good standing without expense to the organization.

The scale committees of both organizations, after remaining in session from 9 o'clock Thursday night until 2:30 Friday morning, reached their final agreement. The agreement, which is for last year's prices and conditions, with a few minor modifications of the latter, was adopted by the joint convention, and it then became a contract between the miners and operators which will insure peace in the Illinois mining fields until April 1, 1900. Both miners and operators feel that there will be trouble when a settlement for the year following is attempted, and each organization is preparing for a stubborn struggle one year hence. The operators said that while not desiring a strike they were prepared for one, and had entered into an agreement to supply each other with coal in case no settlement was reached and strikes were called. The scale of wages adopted ranges all the way from 68 cents a ton in the thin veins of northern Illinois to 36 cents a ton in the thick vein fields of the southern part of the state.

INDIANA TROOPS COMING HOME

Regiment Now at Matanzas Receives Muster Out Orders.

Washington, March 11.—In pursuance of the administrative policy of bringing home all the volunteer troops for muster out in anticipation of the exchange of ratifications of the treaty of peace with Spain, orders have been issued for the muster out at Savannah, Ga., of the One Hundred and Sixtieth regiment of Indiana volunteer infantry, now at Matanzas. The regiment will be brought home as soon as a troopship is available and kept at Savannah until warmer weather.

The order for the muster out of the volunteer troops in Cuba has been left to the discretion of Gen. Brooke, commanding the entire Cuban army, on the theory that he is the best judge of organizations that can be relieved of military duty on the island.

Balks at a Prohibition Bill.

Toronto, Ont., March 11.—The secretary of the Dominion Alliance has received from Sir Wilfrid Laurier, the premier, the answer of the government to the request of the alliance that a prohibition measure be introduced into the dominion parliament following upon the plebiscite of last fall. The premier announces that the expression of public opinion recorded at the polls in favor of prohibition did not represent such a proportion of the electorate as would justify the introduction by the government of a prohibitory measure.

Dewey Not to Be Recalled.

Washington, March 11.—The statement can be repeated on the authority of the detail office of the navy department that Admiral Dewey will not be relieved at Manila unless he chooses to make application for such relief. So far he has not given any intimation of a purpose to apply for relief in the immediate future, and from the few declarations he has let fall the department has every reason to believe that he does not contemplate any such action.

Suffrage Falls in Oklahoma.

Guthrie, Ok., March 11.—Woman suffrage in Oklahoma is not to be realized this year. The legislature adjourned Friday without passing the measure introduced several weeks ago and passed by the lower house. The suffragists are already canvassing among members of the legislature to get it passed at the next session.

Will Take No Commission.

Washington, March 11.—Gen. Joseph Wheeler will not receive an army commission from the president. Under the circumstances it was thought better for the general to retain his seat in congress, and the decision is generally accepted as final and in accordance with the personal wishes of Gen. Wheeler.

Jones Has Another Setback.

Washington, March 11.—Senator James K. Jones, of Arkansas, who has been ill for some time, suffered another setback Friday. During the afternoon he was attacked with a paroxysm incident to the angina pectoris, which, while not so severe as former ones, appeared to be more stubborn in yielding to treatment.

Pope Alarms His Doctors.

Bad Digestion, Bad Heart.

Poor digestion often causes irregularity of the heart's action. This irregularity may be mistaken for real organic heart disease. The symptoms are much the same. There is, however, a vast difference between the two: organic heart disease is incurable if not cured early; apparent heart disease is curable if good digestion be restored.

A case in point is quoted from the *New York Herald*, dated March 10, 1899. Mrs. Ellen Collier, of Greensburg, Ind., a woman forty-three years old, had suffered for four years with indigestion, stomach trouble, flatulency, gas, and distressing constipation. The indigestion was caused by the indigestion process of the heart, and caused an irregularity of its action. She had much pain in her stomach and heart, and was subject to frequent and severe choking spells which were most severe at night. Doctors were tried in vain; the patient became worse, despondent, and feared impending death.

A Case of Heart Failure.

She was much frightened but noticed that in intervals in which her stomach did not trouble her, her heart's action became normal. Reasoning correctly that her digestion was alone at fault she procured the proper medicine to treat that trouble and with immediate good results. Her appetite came back, the choking spells became less frequent and the choking spells were restored and she now weighs more than for years. Her blood soon became pure and her cheeks rosy.

The case is of general interest because the disease is a very common one. That other name for the means of cure we give the name of the medicine used—Dr. Williams' Pink Pills for Pale People. These pills contain all the elements necessary to give new life and richness to the blood and restore shattered nerves.

The Natural Cure for Indigestion

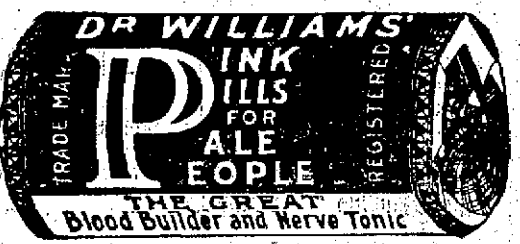

Does your stomach distress you after eating? Do you have a yellow tongue, bad complexion, bad taste in the mouth? Do you suffer from wind on the stomach? Constipation?

These things arise from Indigestion and Dyspepsia. Digestion depends on the regular supply of digestive fluids or "ferments" secreted by certain glands. When the secretion becomes insufficient or irregular, Indigestion follows.

Dr. Williams' Pink Pills for Pale People cause these glands to resume their normal action and good digestion results.

Artificial ferments (of which most so-called Dyspepsia cures are composed) may give temporary relief, but Dr. Williams' Pink Pills for Pale People afford a permanent cure.

You do not have to take the pills indefinitely. Beware of imitations and substitutes. If your druggist does not sell the genuine you can obtain them from the Dr. Williams Medicine Co., Schenectady, N.Y. Sent postpaid on receipt of price, fifty cents per box; six boxes, \$2.50. PENALTY FOR USING PASSES.

Wisconsin Judiciary Committee Reports an Anti-Pass Resolution.

Madison, Wis., March 11.—The assembly judiciary committee Friday reported favorably the anti-pass resolution for a constitutional amendment. As it stands the resolution leaves the penalty to be fixed by the legislature. A minority report insisting on a forfeiture of office clause was also sent in and a big fight will be made to substitute the minority report. The barber licensing bill was ordered to a third reading. It provides for a board of examiners of two barbers and one physician, examinations to be held in five cities in each year, and all barbers to register within ninety days.

The assembly killed the Zinn bill to repeal the lien law, which allows contractors to levy on owners of houses for pay, whether subcontractors are paid or not. The senate passed the Whitehead bill requiring the placing of seats for female help in stores, and the Roehr bill placing stringent regulations upon the manufacture of cigars.

The senate committee reported favorably the Harris bill taxing all ice shipped out of the state 15 cents a ton.

Find Spanish Captain's Body.

Santiago, Cuba, March 11.—It is reported here that the body of Capt. Villalon, who commanded the Spanish torpedo-boat Pluton, which was sunk in the destruction of Admiral Cervera's squadron, has been discovered in a sitting posture in an arm chair in a cave about a mile from El Morro to the westward. Those who bring the news suggest that his sailors propped him in the chair when wounded, and then left him to his fate.

Smallpox at the Capital.

Washington, March 11.—Smallpox has been widely prevalent here of late and the health authorities are bending every effort to check what has threatened to assume the aspect of an epidemic. CONTRACTORS SEE
BUSY SEASON AHEADBUILDING ACTIVITY WILL BE
FELT HERE.

Four of the Largest Building Contracts Carried Out Here in Years Are Slated For This Summer—Many Private Houses Will Be Erected This Spring.

What promises to be one of the busiest building seasons in the Bower City in many years, is undoubtedly the season of 1899.

Contractors here say that the present indications point to this fact. Four of the largest building contracts that have ever been figured on in Janesville, are now about to be consummated and carried out within the next few weeks.

The proposed new government building, to contain the post-office and for which congress appropriated \$50,000 is well entitled to first place. The erection of this proposed building will furnish work to a large force of men for many months.

Rock county's new \$20,950 bastille, which will be erected at the corner of Park and South First streets will rank second.

Work on this building will be commenced by Contractor John Peters of this city, just as soon as the frost commences to creep out of the ground.

Michael and Dennis Hayes, recent purchasers of the Thomas Lappin block at the corner of Main and Milwaukee street, expect to commence the work of remodeling the block within a short time at a cost of from \$15,000 to \$20,000. The building will be practically new throughout. All stairways will be made of marble and a modern passenger elevator will be placed therein.

It is also proposed to remodel a portion of the basement for renting purposes. Directors of the Janesville Machine Works are still figuring on the erection of a mammoth warehouse to be built this summer on Pleasant street west from River street, at a cost of several thousand dollars. That this building will be started this summer there seems but little doubt.

Several of the contractors now have in their possession plans for several houses to be built this spring in many portions of the city to cost from \$1,000 to \$4,000. Said a well known local contractor:

"This is going to be an unprecedented year in Janesville. I honestly think, along the line of building improvements. There is going to be almost no end of new buildings, among them many residences. I doubt if any one is going to be entirely scared out by the recent advances in some lines of building material; lumber is up a notch or two, I looked for that; other stuff along that line will have to go up a little bit more than last year. In fact, they will be compelled to, owing to the marked advance in many of their materials. Hardware has also advanced but in spite of all this the Bower City is sure to see a building boom here this summer."

Several of the contractors now have in their possession plans for several houses to be built this spring in many portions of the city to cost from \$1,000 to \$4,000. Said a well known local contractor:

"This is going to be an unprecedented year in Janesville. I honestly think, along the line of building improvements. There is going to be almost no end of new buildings, among them many residences. I doubt if any one is going to be entirely scared out by the recent advances in some lines of building material; lumber is up a notch or two, I looked for that; other stuff along that line will have to go up a little bit more than last year. In fact, they will be compelled to, owing to the marked advance in many of their materials. Hardware has also advanced but in spite of all this the Bower City is sure to see a building boom here this summer."

Blizzard Rages in Wyoming.
Cheyenne, Wyo., March 11.—One of the worst storms of the season is raging here today. Stockmen say this blizzard, following the extremely severe weather of the past six weeks, will undoubtedly cause a very heavy loss in cattle and sheep. Of the range stock some estimate the loss as high as 50 per cent, but with stock growers who still have hay to feed and shelter for their herds the loss will not exceed 10 per cent.

Plans for Indiana Militia.
Anderson, Ind., March 11.—The first move toward the reorganization of the Indiana national guard has been made by the selection of Evansville, Terre Haute, Frankfort, Vincennes, New Albany, Madison, South Bend, Lafayette, Fort Wayne and Indianapolis as the cities to contribute the companies for their respective districts. The new organization will be formed by equal congressional district apportionment.

For frost bites, burns, indolent sores, eczema, skin diseases, and especially Piles, De Witt's Witch Hazel Salve stands first and best. Look out for dishonest people who try to imitate and counterfeit it. It's their endorsement of a good article. Worthless goods are not imitated. Get De Witt's Witch Hazel Salve. People's Drug Co., Main and Milwaukee streets.

Chamberlain's Cough Remedy

This remedy is intended especially for coughs, colds, croup, whooping cough and influenza. It has become famous for its cures of these diseases, over a large part of the civilized world. The most flattering testimonials have been received, giving account of its good works; of the aggravating and persistent coughs it has cured; of severe colds that have yielded promptly to its soothing effects, and of the dangerous attacks of croup it has cured, often saving the life of the child. The extensive use of it for whooping cough has shown that it robs that disease of all dangerous consequences. Sold by People's Drug Co.

Maple City Self-Washing Soap works perfectly in hard water. It bleaches white clothes and sets fast colors.

Austria Not Seeking Land in China.
Vienna, March 11.—The Fremdenblatt declares that the report that Austria is seeking to acquire Chinese territory is absolutely unfounded.

The Bicycle Fever Has Struck Town.

They tell about the spring fever getting the best of us, but the Bicycle fever keeps pace with it. PEOPLE ARE ALREADY INQUIRING ABOUT WHEELS and we are prepared for any inquiry. Better stocked than ever and that is saying considerable. OUR LINES OF BICYCLES THIS SEASON CANNOT BE SURPASSED and our prices are strictly in it. A little money will go a long way here on good Bicycle. Lowell's prices are always about right.

It Takes Good Material
and good workmanship to build a bicycle to carry the largest man on earth. Joe Grimes, weighs 535 pounds, rides a Cleveland. It's the maximum of safety.

MORAL: It's safe to ride a Cleveland.
WE SELL THEM.

Phoenix Wheels May Well Be Your Choice For '99.

We sold many of them last year, not a word of complaint on them; nothing but praise. PHOENIX EXCLUSIVE POINTS ARE MANY. You can take the bearings apart yourself and put them together without special tools—the action is simplicity itself.

Cones and Cups are Best
These are the most essential part of a wheel, and Phoenix cups and cones are made of Sanderson steel, the most expensive and toughest steel known. The arrangement about the barrel hanger cannot be bettered.

About Crank Hangers...
Instead of being a complicated part,

Phoenix Hangers
are simple. Single pace crank bearings are parallel and the complete bearing can be removed in one minute's time by a novice. An ordinary bike wrench does the business.

Don't forget we are strictly in it on Hardware, Stoves, Furnaces and Tin work.
